Required: CFAA Registered Fire Alarm Technician

Douglas Fire Safety Systems Ltd. has been serving the Ottawa region for over 45 years and is proud to have earned the reputation of providing honest and reliable service to our customers.

We are currently seeking a **CFAA Registered Fire Alarm Technician**, with extensive experience in the installation and servicing of fire alarm and life safety systems, to join our growing team of fire alarm professionals.

Responsibilities:

- Conduct monthly, bi-monthly, quarterly, semi-annual and annual inspections, repairs, installations and verifications of fire alarm systems and other related life safety equipment
- Conduct service calls and participate in a rotational after-hours and weekend on-call schedule

Qualifications/Skills:

- CFAA Registration with a minimum of three years industry-related experience
- Valid Driver License with clean driver's abstract
- Strong working knowledge of fire alarm systems and other life safety equipment including sprinklers, emergency lighting, kitchen systems, portable fire extinguishers and fire hoses
- Meticulous attention to detail and accuracy regarding reports and work orders
- Strong written and verbal communication skills
- Excellent troubleshooting skills
- Exceptional customer service skills
- Self-motivated and able to work with minimal supervision
- Dependable, good attendance and strong work ethic

Compensation:

- Competitive wage based on experience/performance
- Comprehensive Group Health Benefits Plan
- After-hour and weekend on-call bonus
- Company uniforms provided
- Company vehicle provided
- Company mobile phone provided
- Fair and equitable working environment

If you are interested in exploring the possibility of joining our expanding team of fire alarm professionals, please forward your resume by email dgraham@dougfire.com.
